Shawnee State University recognizes the need to create and maintain an environmental quality which sustains and enhances the general health and well-being of its students, faculty, staff, and visitors. The following is, therefore, the University's policy.

1.0 Campus

1.1 Buildings

Smoking and the use of smokeless tobacco products shall be prohibited in all buildings and other enclosed structures owned or leased by the University except for rooms within University buildings used primarily as residence of students or other persons affiliated with the University. Use of tobacco products in housing units owned or managed by the University is not governed by this policy.

1.2 Entrances and Other Areas Adjacent to Buildings

Except as provided in paragraph 1.3 of this policy, smoking is prohibited within 25 feet of any entrance or other outside access to a building so as to insure that tobacco smoke does not enter the area through entrances, windows, ventilation systems or any other means.

1.3 Designated Smoking Areas and Entrances

As an exception to paragraph 1.2, one designated smoking entrance to a building may be established by the University-wide Facilities Committee after consultation with employees who work in the building and giving due consideration to students and visitors to that particular building. The decision to establish a smoking entrance or area, may be revisited in any subsequent academic term by the petition of at least one employee in the building or five students who attend class in that building. Nothing in this paragraph requires the establishment of a smoking entrance or area for a building. No smoking entrance may be established for any building that has only one public entrance.

2.0 Vehicles

Smoking and the use of smokeless tobacco products shall be prohibited in all vehicles owned or leased by the University or groups and organizations connected with the University.

3.0 Coordinating Responsibility

3.1 Communication

The vice presidents and provost will be responsible for communicating this policy to the academic community. The Facilities Department will be charged with posting appropriate signs and entrance receptacles.

3.2 Enforcement

Vice presidents, provost, deans, chairpersons, administrative officials and supervisors are generally responsible for the implementation and enforcement of this policy. It is the responsibility of everyone in the academic community, including visitors, to comply with this policy. Disputes or complaints should be referred to the appropriate vice president or president and disciplinary action may result.

New Scholarship Offered by Shawnee State University Development Foundation to Help SSU Seniors Reach Graduation

PORTSMOUTH, Ohio – The SSU Development Foundation announced $50,000 in new scholarship funds to help former Shawnee State University students who were potentially close to earning their degrees, but are no longer enrolled in college.

“We want every student to achieve his or her goals, including reaching graduation,” Dr. Rita Rice Morris, SSU President, said. “Ultimately, that’s why we are here – and we are committed to removing the barriers that keep students from successfully completing courses and earning their degrees.”

Students who meet the criteria and are recommended by a university dean and department chair following a degree audit will be asked to apply for one of the new “Development Foundation Completion Scholarships.” Applicants must have completed at least 90 semester hours toward a degree, have a cumulative grade point average of at least a 2.0, be in good fiscal standing with the University, and have been enrolled at SSU within the past three years.

“Students stop attending college for a number of reasons, with one of the biggest being financial challenges,” Morris said. “With the Foundation’s help, we hope to give students who are close to earning their degrees the chance they may need to accomplish their goals and put their education to work filling vital workforce needs in our community, region, and state.”
