

## **Veteran's Center – Development of a site for Veteran's Center (Brenda Haas)**

**6 Recommendation of immediate availability of resources in support of the proposal.**

**0 Recommendation for proposal to be held in abeyance.**

Dear Dr. Haas,

The Academic Resource Management Committee (ARMC) recognizes the importance of offering veteran's services. The development of a Veteran's Center complete with space for students to "hang out" will be an important addition. Your proposal requests room for development of the Center. This is reasonable. **The Committee recommends immediate availability of resources to support your proposal.** The Provost will seek to identify space for the Center and develop a plan and timetable for its completion. ARMC members' comments are given below.

Thank you for your proposal,

Dr. Jeffrey A. Bauer, Provost  
Chair, Academic Resource Management Committee

### **Comments and/or suggestions:**

Clearly there is a need for this proposed center and the outlay of resources to support our veteran students should be a top priority. I recommend immediate use of resources in support of the proposal

I recommend immediate use of resources in support of the proposal.

The services coordinated through the center and the message of support it broadcasts to veterans are all important and noble. The costs associated with this proposal seem negligible.

Improving our efforts and providing substantial support for veterans meets an important need. Assuming that space can be made available and the allocation for build-out can be managed within the FY17 budget, I support this proposal.

Very few resources needed other than space. Find some space.
